

Homework Breakout Room Discussion AELG Spring Conference 2021

Group Participants:

- Tiara Smith
- Francis Konyeha
- Alisha Baveja
- Lisa Yankanich
- Anna Donohoe

Challenges:

- Getting students to do homework
 - Some teachers shared that they don't assign lots of homework because students don't do it
- Understanding how to do homework, particularly in asynchronous class format
- Less contact with teachers and students in the virtual space

Solutions

- Provide encouraging feedback to students who do submit homework
- Use quizzes as incentives
- Review homework and check answers in the Zoom classroom (call on students as needed)
- Replicate activities that were already done in class in homework so it's reinforced and it's clear how to complete assignments
 - Activity in class from student textbook
 - Give corresponding activity in workbook as homework
- Start classes with a review of material as warm up
